AFTERNOON DISPATCHES

WASHINGTON.

Internal Revenue Reductions—A Revolution.

Dissatisfaction at the President's Dilatoriness—Campaign Club—Presidents' Widows.

Associated Press Dispatches.]

WASHINGTON, March 28.—The House Committee on Ways and Means has agreed upon a bill to reduce the internal revenue tax. It repeals the stamp tax on bank checks, drafts, orders and vouchers; the tax on capital and deposits of banks and bankers, under Section 3108 of the revised Statutes as amended, the tax on the capital and deposits of National Banks under Section 5214, revised Statutes, not including taxes on the capital and deposits of said banks, bankers and National Banks for the current six months of the period ending June 30, 1882, and in the case of other banks and bankers, the 31st of May, 1882; also the tax on matches, perfumery, medicinal preparations and other articles imposed by schedule A, following Section 3437 of the revised Statutes.

COMMENTING ON THE PRESIDENT.

Dissatisfaction of Republican Senators at what they consider the unnecessary dilatoriness of the President in making appointments is gaining expression daily and the grumbling increases. Last Saturday half a dozen or so of Republican Senators who happened to meet at the Capitol discussed the Presidential tardiness with warmth and commented freely upon what they regarded as favoritism shown to certain Senators.

REPUBLICAN CAMPAIGN CLUB.

The Republican Congressional Campaign Club organized last night. After selecting Representatives Darrel and Labelford, of Colorado, and Tyler, of Vermont, to fill the vacancies from those States, the committee elected Representative J. A. Hubbell, of Michigan, chairman, and appointed an executive committee of fifteen to look after campaign affairs during the ensuing year as follows: Senators Allison, Hale and Aldrich and Representatives Hiscock, Robeson, McKinley, Fisher, Page, Davis, Houck, Calkins, Van Horne, Russell, Washburn of Minnesota, and Regan of Kansas. The executive committee will appoint a secretary. Five members of the executive committee will be a quorum.

GAUGER APPOINTED.

Wm. D. Smith has been appointed Internal Revenue Gauger for the first district of California.

ADVERSE REPORT.

The Senate resolution to retire Crittenden as Brigadier General was reported adversely.

IMPROVING RIVERS.

Kellogg will, on Monday next, call up the bill for the improvement of the Mississippi and Missouri rivers.

INDIAN AFFAIRS.

The Secretary of War thinks Congress will vote full supplies for the hungry Arapahoes and Cheyennes. The troops in the Indian Territory number about 500 men, about 200 mounted. The staff officer thinks there is little danger of the Cheyennes attempting to get north again.

REPORT ON RAILROAD LANDS.

Before leaving the Interior Department Secretary Kirkwood will send in his report upon the present legal status of all grants of land made to railroads, in response to a resolution of Representative Cobb, passed five weeks ago. Since that time half the force of the Land Office has been night and day compiling tables and collecting laws. The record had to be searched from the beginning of the Government, as the resolution called for information as to all land grants made to date, which included those made to national turnpikes, canals, etc., in early days.

LOOKING AFTER THE WIDOWS.

The bill has passed the Senate granting pensions to the widows of Presidents Garfield, Tyler and Polk.

Hurricane in Louisiana.

NEW YORK, March 28.—The Times' Monroe, Louisiana, special says: A violent hurricane swept over this place yesterday evening. At the McGuire place six cabins and a portion of the gin house were blown down. On the Cooper plantation all the houses, including the dwelling, were destroyed. J. W. Scarlborough lost his gin house, and two cabins were blown to atoms. On the Oliver plantation all the houses were destroyed. The Carpenter plantation lost the gin houses and two cabins; loss, $25,000. An old colored woman on the Ludelung place was blown away and her body has not yet been found. Several negroes are reported killed.

After the Indians.

ST. PAUL, Minn., March 28.—Special reports at Fort Assiniboine, Montana, by a courier from Captain Jacob Kline, of the 18th Infantry, in command of the column operating against the half-breeds and Indians on Milk river, say that he struck Indians on the 14th instant, half a mile below Medicine Lodge, where there were thirty-five or forty lodges of Little Pine's band. On the 15th, by forced marches, he reached the first half-breed village, and a half an hour later a detachment of cavalry had destroyed eighty or ninety dwellings. The leaders had fled. The half-breeds were badly demoralized and were going north. The cavalry has been sent to the lower village and this movement will close the half breed campaign, unless the Indians again show themselves on the north side of the river, when Captain Kline will drive them back over the line.

A Town Nearly Destroyed.

LYNCHBURG, Va., March 28.—The town of Grundy has been almost entirely destroyed by fire.

FROM THE BAY.

A Fiend in Human Shape Hacks His Wife to Death.

SAN FRANCISCO, March 28.—A fearful wife murder was committed here about 9 o'clock last evening. John Killalea, a longshoreman, residing at No. 410 Dupont street, killed his wife, Maria Killalea, in a drunken fit of jealousy. Armed with a sheath-knife, Killalea proceeded in his fury to carve the woman in a terrible manner. Stabs were inflicted in the right side of the neck, the right side of the head and shoulder, in the abdomen, chest, and under the left nipple, also a fearful slash on the left side of the face, from the ear to the angle of the mouth. The first and second fingers of the right hand were also nearly severed. During the sanguinary fiendish rage of Killalea, he did not seem to be exhausted until life was extinct and the body of his wife lay lifeless at his feet, mangled and bloody. No reason is assigned for the deed but a spirit of jealousy inflamed by strong drink. When arrested the murderer was asked what was the matter, when he answered, with brutal indifference, "Oh, nothing! I have only cut my wife's throat, that's all." The deceased was a native of Ireland and aged 46 years. She was the mother of six children, all living. Killalea was taken to the city jail at once after committing the fearful deed and locked up on a charge of murder.

CALL SALES A FAILURE.

Feed barley—Weaker at $1.40@1.50. A petition is being freely signed on Produce Exchange to abolish call sales which is developing into a first-class failure. Shippers take no stock in it and members seem to have no desire to speculate themselves.

THE NEW GRAIN EXCHANGE.

The grain exchange, the offshoot of the big board of brokers, met to-day. The Chairman made a gratifying report of progress. The committee on constitution, by-laws and rules are nearly ready to report. A number of names of additional charter members was reported. Horace Webster was chosen temporary treasurer.

HOUSEHOLD.

SANITARY HINTS.

It is easier to keep one's health than to regain it when once lost. And yet on this point how careless and negligent some people are. Here are a few rules which will commend themselves at once to every one's common sense, and need but to be recalled to be more generally observed: Never lean with the back upon anything that is cold. Never begin a journey until the breakfast has been eaten. Never take warm drinks and then immediately go out into the cold air. Keep the back, especially between the shoulder blades, well covered, and the chest also well protected. In sleeping in a cold room, establish the habit of breathing through the nose, and never with the mouth open. Never go to bed with cold or damp feet; always warm by a fire ten or fifteen minutes before going to bed. After exercise of any kind never ride in an open carriage or near the window of a car for a moment, for it is dangerous to health and even to life. When hoarse, speak as little as possible until it is recovered from, as the voice may be permanently lost, or difficulties of the throat be produced. Merely warm the back by the fire, and never continue keeping the back exposed to the heat after it has become comfortably warm. To do otherwise is debilitating. When going from a warm atmosphere into a colder one, keep the mouth closed so that the air may be warmed by its passage through the nose before it reaches the lungs. Keep the body in motion after any violent exercise while cooling off. An observance of these few simple rules will save many a doctor's bill, and not infrequently life itself.

RENOVATING OIL CLOTH.

Oil cloth washed in hot water or in soapsuds, or with a brush, will look dingy when dry, and soon crack and peel off; but when always washed in lukewarm water with a piece of soft old flannel, and wiped perfectly dry each time, will last longer and retain its young looks down to old age; it greatly improves its appearance to use half milk and half water. Skim milk, if not sour, is just as good as new milk. This makes oil cloth look as if varnished. Neither soap, hot water or brush should ever be used on it.

The practice of thinning potato vines to two stalks in the hill, when they exceed that number, has been annual with a correspondent of the American Cultivator, and his father before him, for fifty years. This is done at hoeing time, the superfluous (weakest) stalks being treated as weeds. The effect is, as may be supposed, an increase of large handsome tubers. The object of cutting seed to single eyes is in part to prevent overcrowding and competition of stalks,

HOW TO WASH THE FACE.

Many people object to the use of soap, disliking the shiny, polished appearance it gives, but any who use Dr. Wilson's directions will find that objection removed. They are as follows: "Fill your basin about two-thirds full of fresh water; dip your face in the water and then your hands. Soap the hands well and pass the soaped hands with gentle friction over the whole face. Having performed this part of the operation thoroughly, dip the face in the water a second time and rinse it completely. You may add very much to the luxury of the latter part of the operation by having a second basin ready with fresh water to perform a final wash."

TO CLEAN MATTING.

In cleaning matting wash twice during the summer with salt and water—a pint of salt to half a pailful of warm, soft water; dry quickly with a clean soft cloth. Treated in this way the matting will not grow yellow. Or, if preferred, apply a thin coat of varnish to the matting. That will make it more durable and greatly improve its appearance. If varnished, it will not need washing. Now and then wipe with a wet cloth and dry quickly. Use white varnish on white matting. Be sure and have the varnish thin or the matting will crack.

TO CURE CORNS.

Soak the feet for one-half hour in a solution of soda, and pare the corns as closely as possible; then apply a plaster of the following ingredients: Take of purified ammonia and yellow wax each two ounces and acetate of copper six drachms; melt the first two ingredients together, and after removing them from the fire add the acetate of copper just as they grow cold; spread the ointment on a piece of soft leather or linen and place it on the corn, removing it in two weeks.

An agricultural exchange says: Every paper in the United States ought occasionally to keep the fact before its readers that burnt corn is a certain and speedy cure for hog cholera. The best way is to make a pile of corn on the cobs, effectually scorch it, and then give the affected hogs free access to it. This remedy was discovered by E. E. Lock at the time his distillery was burnt in Lewistown, Ills, together with a large lot of store corn, which was so much injured as to be unfit for use, and greedily eaten by the hogs, several of which were dying daily. After the second day not a single hog was lost, and the disease entirely disappeared. The remedy has been tried in a number of cases since, and has never failed.

The Michigan Horticultural Society recently resolved that the grounds about a country schoolhouse ought to be at least one acre in extent, and handsomely laid out, ornamented with trees, shrubbery and flowers.

A pork packer in Boston says he ships 100,000 pounds of leaf lard weekly to New York city for manipulation into butter imitations. Another sells 40,000 pounds of suet and tallow per month for the same purpose.

WEST, the inventor and half owner of the "Horne and West Belt," has invented another belt, so much better and cheaper, that it will supercede all other electrical appliances for the cure of disease. We challenge the world to produce its equal—Physicians approve and use it. All persons suffering from *Rheumatism, Nervous or General Debility, Paralysis, Kidney or Back Troubles, Ague, Piles, Indigestion, Rupture, Neuralgia and Liver Complaint, Catarrh, Impotency, Male and Female Troubles* of every kind, and all other *Chronic Ailments*, will recover health in using this Belt. So cheap the poorest sufferer can buy it. Price, $5, $8, $9 to $30. Also, Electrical Bands for arms and legs, unrivaled for curing *Rheumatism* and like diseases. Price, $5 to $10 per set—all sent C. O. D. to any order. Send for circulars. Address,
C. N. WEST, 22 Kearny St. San Francisco.

NEWS OF THE MORNING.

The Chinese bill still in doubt.

The call sales are declared a failure.

A Republican Congressional Campaign Club is organized in Washington.

The Washington people are grumbling at the President's lack of decision.

Kirkwood will report upon the legal status of all land grants to railroads.

Crop prospects good—reports from central and southern portions of the State.

Steingel, the train-wrecker, gets a sentence of thirteen years in San Quentin.

A San Francisco girl marries an English Baronet and former Lord Mayor of London.

A bill has been passed granting pensions to the widows of Presidents Garfield, Tyler and Polk.

The Illinois State Senate adopt a resolution asking the President to pardon Sergeant Mason.

John Killales, a longshoreman, while drunk, hacked his wife to death with a sheath-knife.

"Fresh, the valet," the man who brushes the President's clothes, "assuming Congressional manners."

A bill has been agreed upon by the Ways and Means Committee repealing the stamp tax on bank checks, drafts, etc.

AMERICAN NEWSPAPERS.

The first paper ever printed in America was established in Boston in 1690. One hundred years later the total number was only two hundred, of which only two or three were dailies. Since 1776 the progress of journalism has been marvelous, the total number of newspapers now published exceeding eight thousand, of which about eight hundred are dailies. The wonderful growth of journalism was well illustrated in a lecture delivered by Wendell Phillips in New York some time ago in which he stated that when the battle of Waterloo took place in 1815, the London Times devoted only one-third of a column to its description of the fearful struggle, whereas a full page account of the Ute massacre of ten persons in Colorado a few years ago, was given by the great American dailies. When William Lloyd Garrison was mobbed in Boston in 1835, the papers of that city published no details of the outrage. President Harrison had been dead ten days in 1841, before the news reached Springfield, Illinois, and Abraham Lincoln doubted the truth of the report even then on account of the short time it had taken to convey the message! Now the afternoon papers announce "William Ewart Gladstone's speech in the British Parliament this morning." Mr. Phillips aptly remarked with reference to the man who reads newspapers, "He has a telegraph wire that connects him with the world, and the man who does not might as well be Robinson Crusoe on his island." To forecast the future position of newspapers would be a vain attempt indeed in this age of electricity and rapid thought, but it is safe to assume with Mr. Dana of the New York Sun that the newspaper of the future will be neither a directory of trade nor a blanket sheet. He favors banishing advertisements from its columns on the plea that seeking news in the current metropolitan daily is like "hunting for needles in a haystack." An imaginative genius might speculate upon the probability of daily journals in the future being devoted to various individual departments, for instance, political, religious, temperance, agricultural, horticultural, commercial, manufacturing and mechanical—daily papers without advertising columns; and advertising journals become a specialty also. Such an arrangement would doubtless facilitate the exigencies of business, saving much time to individuals seeking specific information, and time is pre-eminently money in this age of progress. Whether future developments will justify such speculations remains to be seen.

However, it is patent to every intelligent mind that the newspaper of to-day wields a mightier influence than any other element of civilization, its province embracing not only the reflection but the moulding also of public opinion. The pulpit and its auxiliaries exert a vast and beneficial influence on every community, but they are not in operation every day, and reach but a small number of the masses, comparatively speaking, whereas the newspaper goes out in a constant living stream, reaching every avenue of business, every occupation and every home, however humble, speaking to a thousand with the same facility as to one, and silently moulding public opinion with a subtle influence not realized even by the readers themselves. Many a human being's destiny has been made or marred for time and for eternity through the influence exercised on his or her mind by a single sentence in a newspaper, through its constantly increasing influence, and consequent formation of character of life. Hence it can be safely asserted that in these days of steam and electricity, rapid thought and progress, the newspaper is the most potent factor in the education of the people.

CROP PROSPECTS.

Reports from nearly every portion of the State give very cheering news of the crop prospects. It will be seen from dispatches elsewhere that in the interior, except in a small portion of the San Joaquin valley, the prospects are that more than an average yield will be garnered. Advices from Solano county say that the fruit and grain crops are looking finely and the farmers are anticipating as large a yield as in any previous year. In other portions of the upper country a fully average crop is expected. In the southern portion of the State the prospect could not be better. San Diego and San Bernardino counties are each heard from in this morning's dispatches, giving favorable reports. Los Angeles, and the counties to the north, which have had more rain than has this county, are in splendid condition, and the yield will probably exceed that of last year. Every agricultural and horticultural industry is in the best possible condition, and nothing short of a calamity, which cannot be foreseen, wil prevent the realization of the most abundant crops throughout the whole State.

HONOR TO WHOM DUE.

Regardless of any bias or opinion as to the merits of the case, our fellow-citizens will all sympathize with Judge Adams in the arduous work imposed upon him by the prosecutions under the Sunday law, and will regret, in view of the fact that he has got to live through the Phillipi trial again, that a conviction or the reverse was not obtained on the first trial. Neither will the candid minded differ with us in saying that the rulings of the Judge in the trial are to be commended for their correctness and fairness. To parry successfully the moves of the wily legal lights of the defense, whose case was given away by the testimony of the prisoner and his employee and friends, and who had to make up a defence from matter foreign to the case and win the jury with airy nothings, required coolness and no little courage and shrewdness, all of which were not lacking in the presiding officer. We think the Judge has won to himself credit, and doubt not in the cases yet to be tried there will be no cause to retract aught we have here said.

PLANT GOOD SEED.

Now is the time if it has not already been attended to, for procuring seed for planting. Only the best of every kind should be used. It will not pay to plant inferior seed though it may be at hand and may cost you but little or nothing. If it is of a poor quality, discard it and procure that known to be good. Seek out the best varieties and those best adapted to your climate and soil and use only those. Large expenditures now will bring large crops in the fall, large prices when the products are sold and greater satisfaction with the result of the year's labor. A seed is "a plant packed for transpotation," and the farmer carries into his field with his seed the grain and vegetable possibilities and limitations of his crop. He may secure a more or less perfect development of the plants but cannot change their character any more than he can grow a navel orange on a seedling tree. Hence the importance of careful selection of seeds.

A philanthropist, who has been visiting one of the Indian reservations in Idaho, complains that the Government furnishes nothing in the way of amusements to the Indians, and writes to the Press, urging that the agents supply the noble red men with "base-ball outfits, croquet sets, footballs, dominoes, checker-boards, marbles," etc.

THE story now comes that it is believed the President will veto the Chinese bill on account of the twenty years restriction clause. It is mere speculation, however, and from the known sentiments of those surrounding the President it seems quite probable that the bill will be signed.

THE Riverside Press and Horticulturist of last Saturday is a splendid six-page edition, and contains an exhaustive account of the Citrus Fair held there last week with statistics of property—owners, numbers of trees, vines, etc. It is an exceptionally fine sheet.

"ASSUMING Congressional manners," is the latest way of putting little family irregularities in Washington, as appears by the dispatches this morning. It is rather a severe commentary.

CHARITY.

BY M. NAOMI MORRISON.

Tho' angeles tune my lips to sing
The sweetest songs of love;
Tho' heavenly seraphs' round me fling
A halo from above;
And man his powers of speech impart,
To aid my frail humanity,
Yet all were vain, aye, doubly vain,
Were I devoid of "charity."

Should gift of prophecy be mine,
To shadow forth the future;
Or mine to delve in mystery's sea,
And bring forth hidden treasure;
Or had I "faith" so firm and strong,
That I could mountains move,
And have not "charity" withal,
My life would "nothing" prove.

And tho' my all of worldly wealth
I give the poor to feed,
Or on the flames my body throw,
To show my love of "creeds,"
Not yet have I the scepter won,
Nor yet the law fulfilled;
For "Charity" is more than these!
A heart pure, undefiled.

But charity, O, gentle dove!
"Long suffereth and is kind;"
So full of faith, of hope, and love,
Of good to all mankind.
She "vaunteth" not herself in pride,
She "envieth" none their wealth;
No dearer friend the needy hath,
'Tis life, and peace, and health.

SAN DIEGO DOTTINGS.

[From the Exchanges.]

The Mexican man-of-war Mexico, now lying at Todas Santos, is waiting for a dispatch to proceed to San Francisco for necessary repairs, and will probably call here in a few days.

The U. S. lighthouse tender Manzanita, Captain Kortz, arrived Sunday morning from Santa Barbara, and sailed again at five o'clock in the evening. She has on board Commander George W. Coffin, Lighthouse Inspector, who is making a tour of inspection of the southern coast lighthouses.

The cases for violating the Sunday law are in the hands of the lawyers, and no time set to hear them.

Mr. Vallette, the assayer, states that nickel has at last been discovered in Lower California. Some ore which was supposed to be copper upon testing proved largely in nickel.

The stage for San Rafael, Lower California, left Sunday afternoon, loaded with passengers, among whom were Dr. G. R. Ghiselin and Prof. J. D. North.

SANTA ANA ITEMS.

[Herald, March 25.]

Mr. Cook gives the total rainfall for the season ten inches.

Mr. J. B. Raine has completed his carp pond and placed in it fifty-five German carp, and intends to put more in it. The pond occupies about half an acre. Fresh water is constantly supplied to the fish.

Beef cattle are becoming hard to obtain so Mr. Powell says, and it may be that for a time the people will have to dine off of poor beef. We believe beef is now higher than ever before known.

Every day one sees teams laden with trees and vines, and meets persons carrying their arms full. The number of trees already planted must be immense, and still the business goes on briskly.

The weather since the rain, has been all that could be desired—warm and pleasant, and the growth of grain and feed is something remarkable.

A party of six persons direct from Iowa, came in here this week, and scarcely a day passes but brings additions to our permanent population.

There is great demand for laboring men here, and it is found impossible to supply the demand, resulting in great inconvenience.

A very large area of land in the valley has been planted to grain since the late rains.

A full force is working in the Santa Clara coal mine, the work upon the shaft having been resumed, and is being prosecuted night and day every day of the week. There are three shifts, each one working eight hours. The vein has not been taken up yet, we understand.

We learn that the force employed by the New York Milling and Mining Company, Silverado, have cleaned the tunnel of the water and debris which caused a suspension of work last year, and the development will now go forward briskly.

Weather Report.

Observations taken by the U. S. Army Signal Service at 8:15 o'clock last night are as follows: Barometer, 30.17; Thermometer, 55; dew point, 51; wind, calm; 1 miles per hour; clear. Maximum thermometer, 68; Minimum, 48.

Always Innocent.

Last night at twelve o'clock Officer Celis brought James Collins into the Police Station, and a charge of disturbing the peace was booked against him. James was indignant at such treatment. His appearance was much like the man who had just been in to interview the fighting editor. One eye had become entirely invisible. His face, hair, hands and clothes were all bespattered with blood. He had been rip-roaring drunk, and raising hades generally, as Celis said. "What are you arresting a man for when he is sober?" he sputtered out. The Police Court will attend to his case this morning.

STATE ITEMS.

Sheep-shearing is progressing actively in Kern county, and times are lively.

Reports from Butte and Colusa counties say that the wire-worm is doing much damage to the wheat fields in many localities.

The California Iron Company expects to chop about 25,000 cords of wood in Placer county next summer, which they will convert into charcoal.

A market-hunter on Bryan's ranch, on the Sacramento, claims to have killed eighty-two white geese at one double shot, with a No. 4 gun, the other day.

James Webber, an employee of the Caspar saw-mill, Mendocino county, recently from San Francisco, was killed on Monday last by a piece of timber striking him in the eye.

A woman at Dry Creek, Stanislaus county, has read so much in the papers about St. Jacobs Oil that she has gone crazy, and imagines that somebody is poking a bottle of it at her all the time.

The Woodland Democrat publishes a number of letters from the various portions of Yolo County, showing that the crop prospects were never better, and that sheep men and farmers are all rejoicing.

The Red Bluff Cause says a teacher in one of the schools there had "a difficulty" with a young lady pupil the other day, which resulted in his whipping her very severely with a rattan cane. The girl's grandfather sued out a warrant for the man's arrest.

LAST NIGHT'S DISPATCHES.

CHICAGO JOTTINGS.

Rather Cutting—"Assuming Congressional Manners."

CHICAGO, March 28.—Washington specials relate that Alec Howell, the colored servant of President Arthur, is assuming Congressional manners, and although a married man with three children, he maintains a young woman for whom he has obtained a place in the Land Office. He has lately ceased to support his wife and when she camped before the White House door lately, he was about to strike her and threatened to kill her. Howell is very unpopular, and is known as "Fresh, the valet." He has been trying to get various clerks and even chiefs of bureaus discharged, because they do not pay sufficient court to the man that brushes the President's clothes.

NOW IT IS THE OTHER WAY.

The story of the President having indicated his intention of signing the the Chinese bill is not credited. The President has given no sign yet. The general belief is, however, that he will veto and indicate that the twenty year clause should be reduced to ten.

WHO SAID THERE WAS?

A Washington special says no credence is given to the rumor that Walker Blaine is to marry a Chilean lady.

ASKING MASON'S PARDON.

The Illinois State Senate to-day adopted a resolution asking the President to pardon Sergeant Mason.

PACIFIC COAST.

Associated Press Dispatches.]

SAN FRANCISCO NEWS.

Crop Prospects Better than the Average Showing.

SAN FRANCISCO, March 28.—Reports from the interior indicate that grain crops will be rather better than the average in nearly all the counties, except those situated in the San Joaquin Valley. In San Joaquin and Stanislaus counties the prospect is good except on the west side where more moisture is needed. A fair crop is hoped for in Merced, but farther up the valley the harvest will be poor, except on irrigated ground.

AFTERNOON STOCKS.

WRESTLING WITH THE PRESIDENT

The Republican State Central Committee met this morning and ordered a dispatch sent to the President, through the California Congressional delegation, informing him that in the opinion of the Committee a failure to approve the Chinese bill will result disastrously to the interests and prosperity of this coast and work great injury to every class.

San Bernardino's Crop Prospects.

SAN BERNARDINO, March 28.—In this county the crop prospects were never better than at present, and the general feeling regarding this season's crop is one of confidence. The snows on the mountains have been unusually heavy, which insures plenty of water for all the irrigating ditches, upon which most of our orchards and vineyards depend.

San Diego's Acreage.

SAN DIEGO, March 28.—Returns from seventeen wheat growing sections of the county show a total of nearly 28,000 acres in wheat, which is in first-class condition. The lowest estimated yield is over 500,000 centals. Every pound of that estimate will be produced. There will be about 200,000 centals of barley. General crops are in splendid condition. Grass is abundant. The fruit crop will be the largest ever known, especially as to the vineyards.

Steingel Gets Thirteen Years.

AUBURN, Cal., March 28.—Ed Steingel, the convicted train wrecker, was to-day sentenced to thirteen years in San Quentin.

FOREIGN.

[Associated Press Dispatches.]

Wedding in High Life.

PARIS, March 28.—Sir Sidney Hedley Waterloo, Bart., Member of Parliament for Gravesend, and formerly Lord Mayor of London, was married at the British Embassy to-day to Miss Hamilton, of San Francisco. Rev. Mr. Ayr, Presbyterian minister, of Napa, Cal., officiated.

There is in this State an institution called the League of Freedom, whose avowed object is to resist the execution of the Sunday law. Such an organization is treasonable, as the Southern States once found, to their cost. The law reads:

"If two or more persons combine for * * * the perversion of obstruction of justice, or due administration of the law, they are punishable by imprisonment in the County Jail not exceeding one year, or by fine not exceeding $1,000, or both.

Desty's Criminal Law says that

"A conspiracy is a combination of two or more persons by concerted action to acomplish some criminal or unlawful purpose."

Attempting to keep saloons open in the face of the law is clearly an "attempt to accomplish an unlawful purpose."—Ventura Free Press.

The yield of hops throughout the country is fully twenty-five per cent. below the average.

G. Merrick, of Wellington, Kansas, has purchased five acres of land from Charles H. Smith, in Pasadena, paying therefor $195 per acre. He will build a house and improve the land shortly.

P. Massey, of the firm of Reid & Massey, left yesterday on a visit to relatives in Wichita, Kansas. E. W. Reid will carry on the employment agency at the same stand. See advertisement.

The street lamps in certain portions of the city fail to shine for some reason. Perhaps the Gas Company are partially fulfilling their threat, or perhaps somebody neglects to do their duty.

As an indication of the immense addition to the deciduous fruit orchards of this county during the present season, it is stated that a large number of nurserymen have sold out all they had.

A. L. Bath's wagon and agricultural implement factory was again broken into on Monday night and about $25 worth of tools stolen. Mr. Bath is preparing a warm reception for his periodical visitors.

A. M. Lawrence has secured the agency for the celebrated brands of cigars handled by J. M. Pike & Son of San Francisco, notably the Sumatra wrapper cigars, the most popular brand in the market, imported directly from London. Call and inspect these new novelties.

The old established hardware emporium of M. W. Childs, 21 Los Angeles street, is an old landmark in this city. The public are invariably served courteously and promptly in this reliable, square house, and the stock of stoves, ranges, hardware, agricultural implements, pumps, rubber hose, crockery and glassware, iron and lead pipe, etc., will rank with any on the Coast. See advt. in "New To-Day."

There was a vein of irony in the questions put by Major Bell yesterday in the case of a fellow charged with theft. "Have you any prejudice in favor of the enforcement of the law against stealing?" "Have you any doubt as to the constitutionality of the law?" and "If the defendant were found guilty, would you hesitate to convict him?" Evidently the Major had been an attentive listener to the Phillipi Sunday law case.

Just Tired, That's All.

W. H. Delehanty got tired last night and laid down in a dry goods box on Spring street, and officer Carpenter made him move his pegs. Then he went down into a cellar, and Carpenter lit a piece of a tallow candle and going in saw Delehanty coiled up like a mainmast down the forward hatchway. He took the coil out of him, and gave him lodgings over night at the County's expense.

FLORENCE.

A Times Correspondent Wants to Know, You Know.

Is the Florence Road a County Road?—If so Why not Make it Conform to the Law—County Roads Generally.

Since my last there has been a glorious rain and all nature smiles, also the good people of this part of God's heritage, are rejoicing exceedingly.

Property is still changing hands. S. B. Ferris has sold his place to Mrs. M. W. Childs, and I understand Mr. Marcus Serrot has sold ten acres near the station. Property is advancing in price very fast and getting into the hands of toilers that will improve it. This is what the country wants, men who will build good houses, plant trees, and take an interest in schools and help build good school houses, which latter is much needed in this locality.

There is one thing that I wish to call attention to through the medium of your valuable paper. It is this: Many people would like to know of the Honorable Board of Supervisors whether the road from Florence station to the city is a county road or not, and if it is why they do not widen and have it fixed so as to meet the requirements of the law governing such matters. I believe that the law is explicit on the subject, requiring all county roads to be sixty feet wide. Now, this road in many places is only twenty feet wide and most of the bridges are only sixteen feet wide. When the Supervisors all know that along this road eight trains pass every day, and the road is traveled more than almost any other road in the county, and in its present condition it is, to say the least, an outrage and a threatening danger upon the lives of most all who travel along this road. If this road is a county road it should certainly be made sixty feet wide, either on one side of the railroad or the other, so that in case a team should meet a train they could have a little chance to dodge, and not be compelled to jump out and hold their horses or run them into some brush pile or fence in order to save their lives. It is to be hoped that our Honorable Supervisors will look into this matter at once. The above will apply to most of the roads in this county. I have often heard this question asked: "Have we any county roads in this county, and if so why are they not made passable?" When Nature has done so much for us our Road Supervisors should do a little. TAX PAYER.

PERSONAL MENTION.

Louis Roeder has received the long expected car of Mitchell wagons.

A. E. Pomeroy has been out to San Jacinto, and will return to-day.

Miss Madie Thompson returned home from Riverside on Monday evening.

Fred. Crocker and party will arrive this morning from San Francisco in a special car.

Mr. Jarrett T. Richards, a prominent attorney of Santa Barbara, was in the city Monday.

G. V. D. Brand, of Ponoma, was in the city yesterday, and made a pleasant call at this office.

J. C. Earp and wife returned yesterday to Colton. He will wait there until he hears from his brothers before going back to Arizona.

Ed. Dunham and a few others are going to Santa Monica to-day to look at the summer hotel of that place. They will go down behind a spanking four-horse team.

Mrs. Charles Tibout of Orange is in the city visiting her daughter, Mrs. H. Gilbert, who has had several severe attacks of heart disease during the past few days.

Mr. and Mrs. O. F. Johnson, the happy possessors of one of the handsomest of the fine places on Magnolia avenue, Riverside, are in the city. They were out to the Villa and L. J. Rose's place yesterday.

A. N. Towne, General Superintendent of the Central and Southern Pacific Railroads, and wife, J. C. Stubbs and wife, and F. G. Rundle arrived in a special car last evening from the east by the southern route.

A DANGEROUS PRACTICE.

A Sham Rat Frightens a Lady Almost Into Hysterics.

It has become the practice of some of the urchins of this city, and some that might be classed as a little larger than urchin, to tie a string to an old shoe or some other dark object, and when ladies are approaching, to slowly draw it across the sidewalk. To the uninitiated an object thus drawn very much resembles a rat, and especially as the trick is always done at nightfall. There are few persons that will not be startled at the sudden appearance of a rat across their path, but more particularly is this the case with ladies, and many times the result of such a trick might be fraught with more damage than a lifetime could atone for. No later than last evening a TIMES reporter's attention was called by the scream of a lady as she was proceeding up Temple street, and on inquiry found this old trick to have been practiced. Luckily for the boys the husband of the lady could not overtake them, otherwise the caption to this item would have been "a boy severely whipped."

RECEPTION.

A Pleasant Gathering at Good Templars' Hall Last Night.

Mr. J. J. Woodworth and wife were tendered a reception last evening at Good Templars' hall, by their many friends. Dancing was continued until 12 M. Among those present were the following: Mr. and Mrs. Robt Brown, Mr and Mrs H B Fox, Mr and Mrs C B Pironi, Mr and Mrs John D Koster, Mr and Mrs W H Stombs, Mr and Mrs J J Woodworth, Mr and Mrs Tom Barnes. Mesdames Nellie Cummings, Wallace Woodworth, B W Grant. Misses Gracie Platt, Mamie Woodworth, Annie Bell; Julia Blake, Ella Case, Mattie Gavitt, Clara Wollweber, Minnie Angel, Annie Angel, Lillian Ashby, Blanche Shackleford. Messrs. Jos B Binford, C O Scott, Sam B Dewey, H C Seward, Alfred Solano, R D Page, Joseph Banning, Wallace Woodworth Jr, H M Fowler, B W Lee, Gibson, Chas T Wilson, Robbie Woodworth.

Death Claims Another Victim.

John H. Haines, formerly manager of the Western Union Telegraph Company at Visalia, died in this city of Typhoid Pneumonia, yesterday morning, aged twenty-nine years. He had served in the same capacity at Guadalupe, in Santa Barbara county, and at Anaheim in this county. Unable to cope with the malaria of Tulare county, he removed to this city, and was preparing to go into the jewelry business, but a severe cold was too much for his debilitated system. His remains were taken to Artesia, where his brother resides, for interment.

COURT NOTES.

The case of Weir against Vail is set for Thursday, June 1st.

The petition for letters of administration in the estate of Andres Alvarado, deceased, was heard and granted, and H. B. Abila appointed administrator under bond of $175.

A petition for the distribution of the estate of F. M. Wulff, deceased, was heard and granted.

A petition for special letters of administration in the estate of John H. Haines, deceased, was heard and granted. Geo. W. Haines was appointed administrator under bonds of $3,000.

The case of Heuston against Moore will be tried by jury to-day.

The Williams case was resumed yesterday morning in Judge Sepulveda's Court. Evidence for the people in rebuttal was given by John McDonald (re-called), Franklin Perry (re-called), W. W. Elliott (re-called), and closed. Argument was then had by the counsel. The jury brought in a verdict of not guilty.

In the case of Carter against Thompson and others, a judgment by default was entered.

In the suit of Crawford against Bouton and wife, and others, a motion was made by the defendants to have action dismissed as to the defendants Margaret F. and Elizabeth Bouton, without prejudice.

In the case of Fayerweather against Hendon an argument on motion was set for to-day at 10 A. M. Leave was granted plaintiff to amend notice of motion to set aside the order staying proceedings in this cause by stating the grounds upon which the motion will be made, and the amendment to be served.

Robert Smith was tried by a jury on the charge of stealing $68 from Richard Terrill, and cleared.

A JEW FISH.

Chased Ashore by Seals—A Sampson with One Arm.

A fish stand on Main street yesterday had a jew fish on exhibition which attracted a great deal of attention. It was six feet long, about five feet around its body, and weighed two hundred and fifty-five pounds. It was provided with eight separate jaws, all set with rather soft teeth. Under its gill-flaps were four gills each. Its eye-balls were about two and a half inches in diameter. The mouth measured about a foot. It was caught Monday evening at Santa Monica by T. W. Sampson, a one-armed negro. He says it was chased in near shore by some seals, and was carried up on the beach by the breakers, where he first noticed it floundering. He ran and grabbed hold of it with his single arm, and commenced hallooing for help. The fish pulled and Sampson pulled. Sometimes Sampson had the fish ashore, and Mr. fish would give a flop and take Sampson with him out in the water, only to be again stranded by a receding wave. About the time Sampson's strength began to give out, some friends came to his assistance, and captured the fish. The flesh of the Jew fish is white, and resembles cod, only it is superior. They can be caught in large numbers off the coast of Lower California, and are destined to become quite an article of commerce.

Police Pickings.

John Kelley will donate fifteen days' labor to the city for being drunk.

Henry Brown got drunk and got nine days. He says it is the first time.

The cases of Guerrero, Maier and Dockweiler, violating the Sunday law, were ordered called next Tuesday to be then set for trial.

The McGaffrey case was tried by a jury and the defendant was cleared. He was charged with stealing a buggy-seat cushion from E. P. Tomkinson.

Samuel Prager was arrested yesterday for violating the Sunday law.

The first trial of Jacob Phillipi for his second offense against the Sunday law is set for next Wednesday. His second trial for his first offense will soon take place.

Orange Trees.

Fisher, Richardson & Co.'s dissolution sale presents an excellent opportunity of securing budded and seedling orange trees at very low prices. They have from fifteen to twenty thousand trees now on hand, among them some budded trees from three to six years old. All trees remaining unsold on April 18th, will be sold at public auction on that day. Also the horses, wagons, harness, farming implements, etc. Call early and secure a good selection of trees. See announcement elsewhere.

Orange Blossoms Preserved.

Mr. J. H. Redway has devised a very practical method for preserving flowers for shipment East, or for preserving them fresh for a period of a fortnight or so. He simply procures a glass bottle with ground stopper, and after placing the flowers in the bottle exhausts the air with an air pump, inserts the stopper and they will keep perfectly fresh for ten days or two weeks. He showed yesterday a large bottle filled with orange blossoms which he had prepared and will send to friends in the East.

Tannerized.

Yesterday morning one of the box cars on a northern freight train gave evidence of either being inhabited or possessed of spooks, from the noise it emitted. On opening it four tramps were found inside, who had got in at Mojave, and had been two days without food or water. They were somewhat weakened by their long fast, and upon relating their story to officer Horner, he allowed them to go on their way, considering that their punishment had been severe enough.

Garden Grove Items.

J. N. Harmon of Garden Grove was in town yesterday and reported that the crops are looking well, and prospects are good for a bounteous harvest in that vicinity. An addition will soon be built to the schoolhouse, a much needed improvement. The Reverend Mr. Nixon, pastor of the M. E. Church at Orange and Garden Grove, was the recipient of a surprise party at his residence in Orange under the auspices of the society in Garden Grove. An enjoyable time was had by all present.

Mouth to Ear.

For the information of those using telephones, we present the annexed list that have recently been added, but do not yet appear on the printed catalogue:

73-4—B. F. Coulter—Woolen Mills.

TO THE DUARTE.

A Drive Through a Choice Section of Los Angeles County.

East Los Angeles—Shorb's Winery—Alhambra and San Gabriel—"Sunny Slope"—Santa Anita—The Duarte.

Monday morning a TIMES reporter took advantage of an opportunity of driving out through one of the richest and most picturesque sections of Los Angeles county, and armed with the ever irrepressible note book and pencil he diligently proceeded to make the most of what he saw. The first thing observed was the rapidity with which East Los Angeles is filling up with tasty and commodious residences, the view from the vicinity of the county hospital disclosing the recent improvements to good advantage. It would seem to the casual observer a judicious move to continue the east and west streets now laid out in East Los Angeles over to the heights in the vicinity of the hospital, thus providing easy and rapid communication from El Monte; San Gabriel and other roads centering at the Five-Mile House, with East Los Angeles.

The next thing observed was the large number of men busy as bees, working on the Shorb & Co. winery in the Alhambra tract. Shorb avenue now bears a neat placard displaying a magnificent avenue, in embryo, leading to the mansion and beautiful grounds of that well-known and enterprising gentleman. A worthy tribute of respect to the memory of our worthy President, entitled to more than passing notice, is evinced in another beautiful avenue near the last named, placarded "Garfield Avenue."

The Alhambra and San Gabriel districts are in common with this city and surroundings generally, rapidly filling up with new-comers. New houses, barns, orchards, vineyards and grain fields can be seen on every hand. The beautiful blossoms of the peach trees were especially noticeable everywhere on the route, forming a magnificent contrast with the snow-capped peak of "Old Baldy." The crop of peaches in San Gabriel valley will doubtless prove a valuable addition to the revenue of the county this year. A visit to the Mission San Gabriel is always one of peculiar interest, but hurrying past, L. J. Rose's magnificent ranch, "Sunny Slope," with its golden fruit, promising vineyards and grain fields appear in full view, then Baldwin's "Santa Anita," with its wealth of fruits, vines and cereals, all demonstrating the wonderful diversity of products our soil is capable of producing. A noteworthy feature of the San Gabriel Valley is the largely increased acreage of grain fields and vineyards, the grain showing unmistakable signs of developing into a bounteous harvest.

Speeding along toward the mountains another district comes into view, "The Duarte," from whence emanates the first fruits of the orange and lemon trees every year, and it may be added with propriety, the best. Duarte is putting on airs—wants a railroad, a postoffice, church, a few more stores, besides the one now well conducted by Mr. Bronson, and the enterprising settlers are evidently bound to have them and many other things. They have organized an irrigation company, have already spent $1,500 in the effort to put it in operation and contemplate spending another $1,500 shortly in its further development. Messrs. Bronson, Barnes, Fowler and Wise have also perfected a system of water works with reservoir on a small scale, for the purpose of securing a constant supply of mountain spring water for domestic purposes.

The reported sale of Hon. Asa Ellis' property was incorrect. He sold an undivided half interest in his 89-acre homestead, including thirty shares in the water company, for $8,000. Mr. Ellis informed the writer that he has too much faith in the future of Duarte to leave there, and has already purchased another tract of twenty-five acres possessing excellent water facilities at the base of the mountains. The prospects are good for the early establishment of a postoffice in this thriving but isolated community. A narrow-gauge railway commencing at the end of the street car track on Downey Avenue and continued on to Pasadena, Alhambra, San Gabriel, Azusa, Pomona, San Bernardino, Riverside, Orange, Tustin, Santa Ana, Newport, Westminster, Wilmington, Santa Monica and connecting once more with the street car system of Los Angeles in the center of town, would bring untold wealth to the lap of this city, solve the problem of cheap local transportation and be a vast benefit to this whole section.

FROM SANTA ANA.

Fell into a Well—Horsewhipped by a Young Lady.

[From our Special Correspondent.]

Last Monday morning Mr. Samuel Derricott, of Santa Ana, was on a visit to Mr. Hermon of Orange, and while looking into a very deep well, lost his balance and fell to the bottom, about sixty feet with no water in it. He was taken out in an insensible condition, when it was found that he had several ribs broken, besides severe internal injuries, from which he is not likely to recover. Mr. Derricott is a man of considerable means, having just sold nearly all of his large ranch adjoining town, in ten or twenty acre lots, at very high figures—he has a wife but no children.

Santa Ana had quite a sensation this morning. It appears that a young man from Los Angeles had been paying his addresses to a young lady here for some time, when he was forbid the house last Sunday. He said he would have revenge, and yesterday told some parties that the young lady's character was not good, etc. She immediately heard of it—he then denied saying so; then the parties to whom he told it took the young lady with her sister to him, and he acknowledged saying so—whereupon the young lady used a whip quite freely and in return got stabbed in the arm with an awl used in harness making. The end is not yet. Guess he had better leave very soon. Dr. Bailey who attended the young lady considers the wound not serious.

An Exciting Runaway.

W. M. Stoddard's team of horses attached to the carriage, broke loose from the front of his house yesterday afternoon and started on a wild race which augured well for a lively smash-up. Turning round the corner of Fort and First streets they ran furiously toward Spring street, colliding with an orange vender's wagon at the corner. The golden fruit was scattered in all directions. The horses continued their course up Spring street, however, and were fortunately stopped by R. McGarvin and another gentleman at the corner of Franklin street without any serious damage having resulted to the horses or carriage.

Various Causes—

Advancing years, care, sickness, disappointment, and hereditary predisposition—all operate to turn the hair gray, and either of them inclines it to shed prematurely. AYER'S HAIR VIGOR will restore faded or gray, light or red hair to a rich brown or deep black, as may be desired. It softens and cleanses the scalp, giving it a healthy action. It removes and cures dandruff and humors. By its use falling hair is checked, and a new growth will be produced in all cases where the follicles are not destroyed or the glands decayed. Its effects are beautifully shown on brashy, weak, or sickly hair, on which a few applications will produce the gloss and freshness of youth. Harmless and sure in its results, it is incomparable as a dressing, and is especially valued for the soft lustre and richness of tone it imparts.

AYER'S HAIR VIGOR is colorless, contains neither oil nor dye; and will not soil or color white cambric; yet it lasts long on the hair, and keeps it fresh and vigorous, imparting an agreeable perfume.

A ONE HALF INTEREST IN THE

Horne & West

ELECTRO-MAGNETIC BELT.

THIS IS THE same belt which is now manufactured by W. J. Horne, and which he is extensively advertising as the W. J. HORNE BELT. This Belt was invented and patented by myself. Afterward I assigned one half interest in this Belt to W. J. Horne, which he now owns in common with me. This Belt has taken two premiums at State Fairs; but as I have invented another BELT, of double the power of the HORNE & WEST BELT, and much superior to it in every respect, and which I make and sell for ONE HALF the cost of the old Horne & West Belt, I will sell my one-half interest, in the Horne and West Belt cheap for cash. MISCELLANY.

A gentleman just returned from Galveston brings us sad news about C. G. Clifford of that city. That friends of Clifford will regret to learn that he is a candidate for Alderman. It is surmised that the motive for the rash act is that some relatives or friends have injured him, and he proposes to bring them into disgrace by becoming an Alderman.—Texas Siftings.

Rubber Stamps of the latest and most improved designs can be obtained at J. A. Valder's, 42 Spring street. They are guaranteed to be first-class in every respect, and sold at San Francisco prices. mr15 tf
